SOFT SNAP UNEARTHED. Gone Unpaid.

MARSHALLTOWN, IOWA, June 9.-C. H. Brock, member of the eighth Iowa cavalry, in searching through old records of the county, discovered among the proceedings of the board of supervisors in 1863 that on December 7 of that year it passed a resolution granting to every man who should enlist after that date \$150. In the January following the board passed another resolution granting a bounty to all who had enlisted before or should enlist after that date, due in \$50 annual payments, with 6 per cent interest on the unpaid amounts. Brock accordingly filed a claim Saturday for \$125, as he had received \$25 when he enlisted, and the accrued compound interest for over twenty-seven years. amounting to over \$600. He further discovered that it would take over \$60,000 to pay the claims to which soldiers enlisting rom this county are entitled. The only thing which can prevent the collection of these claims is the statute of limitations, which, it is said, does not apply to debts of the govern-ment to its defenders. Exciting developments

THE SPEED OF CABLE CARS. Col. Robert Thinks They Run Too Rapidly in Crowded Sections.

At a special meeting of the board of District Commissioners this afternoon Col. Robert brought up the question of the speed of the cable cars. He called attention to the fact that where the cars passed the market or between Louisiana avenue and B street the rate of speed was much too great in view of the large amount of travel at that from 8 miles an hour to 4 miles ernment for blindness being entrusted with a an hour. Later in the afternoon President Hurt of the W. & G. R. Robert said: "If the speed between the points you name is reduced the speed along the whole line would also have to be reduced. The present rate of speed," he continued, "is a great deal less than the state street line, in Chicago, which handles yearly about sixty millions of people, and is less than on any cable line I know of. I trust the Commissioners will see the propriety in allowing the public the only advantage derived from cable roads, namely, rapid transit."

BIG BULLETS FOR DOGS.

Around the Soldiers' Home Grounds. "Something really ought to be done to prevent the miscellaneous firing of deadly weapons at the Soldiers' Home," said a well-known resident of this city in conversation with a STAR reporter this afternoon, referring to the shooting Sunday night that resulted in the death of the colored man Powell. "There was a case of a watchpoint. He suggested that the speed be reduced man who is drawing a pension from the gov-

> fire promiscuous like." "There are any number of people living out by Soldiers' Home who make a short cut through the grounds on their way into the city or home again in the evening. It is not a pleasant thing to think that the same may occur at any time to any of them if men who cannot see across a room are permitted to shoot whenever they hear a dog bark. It now turns out that a member of the police force in that neighborhood reported some time ago in favor of arming the watchmen with shotguns instead of heavy revolvers, as if that general firing was permitted, there was real danger of some one around there being killed. Well, some one has been killed and the question now arises, who will be the next one or will something be done to prevent such a horrible and needless accident from

The wounded man was Eugene H. Cowles. His assailant was E. C. Hale, his wife's brother. After a few words Hale ordered the cabman to drive to the general hospital. Mrs. Cowles. who had alighted, re-entered the carriage, which started for the hospital, a distance of half a mile. A bystander had telephoned for an ambulance, and it met the party, but its services were not required. On arriving at the hospital, Dr. Kirkpatrick, medical superintendent, had the wounded man examined. At last accounts there was some hope of his

Cowles is a son of the late Edwin Cowles, the editor of the Cleveland Leader. He was engaged in business in Cleveland, and about ten ears ago was married to Mise Alice M. Hale. daughter of a wealthy Cleveland banker. The marriage was a most happy one and the union was blessed with a little girl. For some years Cowles led an exemplary married life and everything went well until he fell in with a woman named Clara Lienenschlen, who, it is said, gained complete control over him, Cowles' business used to take him a great deal to Lockto Europe and it was subsequently discovered over the mail matter. that he was accompanied by the woman Clara and that they lived as man and wife at a num-

ber of the leading hotels in Europe. While on one of these trips Cowles was taken dangerously ill, and, believing himself about to die, sent for his wife, admitted his fault and was forgiven. But no sooner had he recovered, fit is claimed, than he resumed his old course of living and went to the United States with the woman. This continued until last November, when, through the efforts of friends, another reconciliation was effected between husband and wife, who took up their residence in Buffalo.

Not long ago Mrs. Cowles discovered that her husband was still unfaithful. He made frequent visits to New York, and it was discovered by detectives that he was again friendly with the woman Clara in that city. Mrs. Cowles then decided to write to Cowles' father. The latter was thunderstruck at his son's conduct and at once wrote to Mrs. Cowles advising her to leave him and inviting her to stay with him. So great was the blow that Mr. Cowles' death soon followed. But few imagined the real cause of the celebrated editor's demise. After his death it was found that he had executed a will by which he provided that one-fifth of his valuable estates should be divided into two parts, one of which he left to his wife and her little girl, Florence, and the other part to his son, Eugene, for use during his lifetime, but it was expressly provided that it would go to the wife and the child on the husband's death.

Young Cowles was enraged at the terms of the will and did everything in his power to break it. Mrs. Cowles in the meantime went with her child to live with her mother. Last Monday Cowles wrote to his wife stating that he was going to leave the country and asked for a farewell interview with his daughter, which was granted. The young girl saw her father at old Mrs. Cowles' house and agreed to return in the afternoon, which she did, in company with her mother's sister. Cowles invited them to go to the depot with him and the upshot was that he boarded the train with his daughter. He took the train to Connaught and proceeded by way of Buffalo to St. Catharine's, and Mrs. Cowles in the meantime engaged detectives, who gave chase and came up with Cowles at St. Catharine's.

Cowles told the detectives that he intended to keep his child and that he would never give it up to the mother. Word was sent to Cleve-land, and Mrs. Cowles, accompanied by her sister, Mrs. Bolton, her brother, E. C. Hale, and At Buffalo they learned that Cowies had left for Toronto, where he put up at the Queen's Hotel with his daughter. The pursuing party at once proceeded to Toronto and put up at the Rossin House. They at once prepared to sub-mit the case to the courts. Cowles placed his case in the hands of Dalton McCarthy, Q.C., but before the case could be brought before the Toronto courts he left hurriedly for Mon-

The bill was much the same as this one, except that it provided for a line across the city on Q street instead of S street, the line of route provided in this bill. The Commissioners returned that bill, suggesting certain amendments and favoring its passage when so amended. These amendments

were incorporated in the bill and it was introduced when so amended, and amended further by substituting S street for Q street and sent to the Commissioners for further report. They returned it, saying they saw no reason to change their former favorable report to the committee, but that there appeared to be a very general protest of S street citizens against it. Since that time some of these protests have been withdrawn, and some of the citizens who would be served by this line of road have petitioned for it. In view of the fact that there are protests against all propositions to build should pass.

#### DAKOTA TRAIN ROBBERS. An Express Boarded by Masked Men. Who Rifle the Mails.

A Northern Pacific east-bound passenger train was robbed by masked men near New Salem. N.D., Saturday night. Two miles east of New Salem and 25 miles west of Mandan the engineer and fireman were surprised by two masked men climbing over the tender and ordering the train stopped at the ends of big revolvers. The summons was obeyed. Express Messenger Augevine, hearing shots fired forward, and suspecting something, hid \$600 in money from the safe, locked the safe, also locked the small safe, put out the lights and ran back to New Salem. The mail car was first tackled by the port. N. Y., and his visits became more and robbers. Only one mail agent was in the car more protracted. Then he took several trips and he immediately obeyed orders by turning robbers. Only one mail agent was in the car A number of registered letters were rifled

and then the two robbers turned their siten-

tion to the express car. This they found deserted, much to their chagria, and mistaking the fireman for the express messenger they ordered him at the point of pisto's to open the safes. He protested that he knew nothing about it and finally satisfied the robbers. Then the train backed to New Salem and finally came on east. The express messenger remained incognite and got on the train as it left New Salem. The passengers were not touched. One put his head out of the window during the delay, but was told to get his head back and a butlet whizzed past his head as a reminder that orders had better be obeyed. A posse of men with the sheriff, mounted and armed, left Mandan early yesterday morning on a special train for the scene of the dar-ing robbery. The robbers compelled Engineer Kilmartin to break in the door of the postal car. Only four masked men were seen at any one time, and suspicions are rife that only two were engaged in the work. During the controversy in the mail car the mask fell from the face of one man, who is reported to be of medium height and build, light hair and with several days' growth of light beard. As the district around New Salem is peopled by quiet, law-abiding settlers, the robbery is presamed to be the work of people unknown in that part of the country.

Jesse Ford, a fourteen-year-old colored boy, was a prisoner in the Police Court this morning. He was charged by Policeman Cotton with being in an unlawful assembly, it being alleged that he participated in a game of "crap" on the commons south of the Capitol Saturday night. The policeman said that he clubbed the boy because some of the crowd had assaulted his partner,
